Junckers HP SportsLine is a water-based 2-component product for painting of court markings and other coloured areas in gymnasiums and sports halls. The product is recommended on Junckers HP SPORT coated and Junckers pre-finished lacquered floors.

Junckers new linemarking paint is available in 6 different colours that are intermixable if you wish to obtain a different colour.

Junckers HP SportsLine has several advantages:

The Junckers HP SportsLine range has a good opacity, and the product can be applied with only one application by either roller or brush, which makes it very quick and easy to use. The depth of colour is great, the quality of the edges are excellent, and the product range offers good compatibility with Junckers HP Sport lacquer.

TECHNICAL DATA

Product:

Water-based 2-pack paint.

Package sizes:

2,2 litres (2 + 0,2) and 0,72 litres (0,65 + 0,065).

Appearance:

White, Yellow, Red, Blue, Green, Black. The range can be mixed to obtain other colours. To avoid colour differences, it is recommended to use colours of the same batch number. When colours have to be toned, mix the necessary amount of paint for the area before start.

Mixing:

10 parts of lacquer to 1 part of hardener. Important: Stir the lacquer part vigorously before mixing. Add hardener to the lacquer part while constantly stirring. Blend vigorously after addition. Allow to rest 10 minutes and stir again before use.

Pot-life:

The mixture should be used within 2 hours. Avoid reuse of mixed material beyond this time.

Coverage:

6-8 m² per litre.

Consumption:

Court marking lines: 120 m in 5 cm width: Approx. 1 litre.
Basketball: Lines: Approx. 3 litres.

Application tool:

Brush, short haired mohair roller or applicator.

Dilution:

For line painting: delivered ready for use. For larger painted areas: A dilution of approximately 10% of water is recommended.

Drying time:

Remove masking tape immediately while Junckers HP SportsLine is still wet. Recoating: After 24 hours at 20°C. Full cure: 3 days at 20°C.

Cleaning of tools:

Clean tools in soap and water before the paint is dry.
